

SMARTBUSINESS® SMART 50 AWARDS

About The Smart 50 Program

The Smart 50 Awards recognize the top executives of the 50 smartest companies in the region for their ability to effectively build and lead successful organizations.

All 50 winners will be honored at a special celebration in 2015 and three organizations will receive specialty awards for their achievements in three category areas – innovation, impact and sustainability. Additionally, all guests will be treated to a keynote address on what it takes to lead a successful “smart” company.

About The Smart 50 Awards

Eligible “Smart 50” nominees must lead organizations that are either headquartered in the region where the awards are being presented or have a physical presence.

Smart Business will vet all nominations and select the top 50 organizations that best represent a cross-section of the community in terms of organization size and industry. A panel of business experts and professors will review those 50 nominations, interview nominees and select a single overall winner in each of three categories >

> **Innovation:** How does the organization develop and take to market new products, services and solutions?

> **Impact:** How do these products, services and solutions benefit the organization, its employees, investors and other constituents, as measured by such items as:

- Sales & Expansion
 - Revenue or employee growth
 - New building construction & expansion
- Attraction of funding & investments
- Diversification of products and services
- Use of technology as a business tool
- Differentiation from the competition
- Giving back to the community

> **Sustainability:** How does the combination of innovation and impact create a sustainable organization that is scalable?

All members of the Smart 50 will receive awards, as well as a toast. Sponsors will present the specialty awards.
